

GREENVILLE UTILITIES COMMISSION

GREENVILLE, NORTH CAROLINA

RFP FOR ELECTRIC DEPARTMENT SCADA SYSTEM UPGRADES

To: All Prospective Proposers and Others Concerned

Subject: Addendum No.2

The intent of this addendum is to notify all prospective proposers and others concerned that the Specifications and Documents are hereby modified as follows:

1. The RFP proposal date has been extended to **Tuesday 4/3 at 4:00 pm.**
2. The **RTC-1032 demonstration is no longer required.** It will be available if you would like to demonstrate. GUC understands that such an implementation is challenging for an RFP unless the implementation is already in place. There are many options on how GUC can operate this load management system and we only have three interface devices to our transmitters. GUC would like for the vendor to discuss their thoughts on how to continue our one-way communication with these legacy load control devices.

Thank you for your efforts in preparing this RFP and demonstration.

The foregoing changes shall be incorporated in the Specifications and Documents.

Please acknowledge receipt of this addendum by e-mailing Cleve Haddock, Purchasing Department at, haddocgc@guc.com. (252) 551-1533
