

**Greenville Utilities Commission  
Greenville, North Carolina**

**Notice of Request for Proposals  
For  
Greenville Utilities Commission ERP**

**GUC Addendum # 4 (Dated 7/29/2011)**

The intent of this addendum is to notify all proposers and others concerned that Greenville Utilities Commission is hereby issuing a clarification to a question that has arisen regarding GUC's current use of Oracle.

At this time GUC only uses an Oracle database express edition for the Gas Dept to run their engineering modeling software. It is not administered by GUC.
