

## **Pre Bid Meeting Minutes October 19, 2011**

Pre- bid meeting 10/19/11 at 10:00 am for one (1) Dump Truck

Attended:

Representing Piedmont Peterbilt, LLC: Larry Daniels

Representing Transource: Bobby Vaughan

Representing GUC: Bill Darty, Cleve Haddock

### **Items discussed in bid package:**

Following are the questions that were raised during the pre-bid meeting:

1-DUMP BODY: pg 5 of 20, Double acting tailgate, we are looking for a double acting tailgate that swings from the top and or bottom, not from the sides.

2-DUMP BODY: pg 5 of 20, two strobe lights inserted in the lower corners of the dump body may be either amber or clear.

3- ADDITIONAL FEATURES AND EQUIPMENT: pg 6 of 20, Traffic cone rack, if room permits, mount behind rear wheels attached to frame allowing cones to slide on.

4- CAB-CHASSIS; pg 6 of 20, 10,000 lb. front axle and 14,000 lb. front springs, question raised that some medium duty chassis have axle packages that have the same weight axle and springs, bid as you feel meets our minimum specification and note any exception on the provided exception page.

5- CAB-CHASSIS: pg 7 of 20, driver and passenger seats shall be high back.

An addendum will be created concerning the above and communicated via email and the GUC web site.
