PUBLIC NOTICE

PROPOSED WATER EMERGENCY MANAGEMENT PLAN CHANGES

While GUC has always been able to meet customers' water needs, any water system is potentially vulnerable to events such as drought, major water main breaks, etc. It is essential to be prepared for emergencies that can place unusually high demands on the system.

GUC has a Water Emergency Management Plan in place that designates three stages of water use restrictions ranging from voluntary to mandatory.

To meet new regulations, the plan has been updated. Proposed changes are available for review at www.guc.com. To request a copy of the proposed plan, customers may call Anthony Whitehead at 329-2160.

Written comments may also be submitted no later than March 11, 2011 to:
Mr. Anthony Whitehead, PO Box 1847, Greenville, NC 27835-1847.
