

GREENVILLE UTILITIES COMMISSION

SEWER CHARGE SCHEDULE S-3  
PRE-TREATMENT ANALYSIS  
AND HAULED WASTEWATER CHARGES

I. APPLICABILITY

This sewer charge schedule shall apply to all persons discharging into the Commission's sanitary sewer system under the authority of a Commission issued wastewater discharge permit. For permitted industries, the pretreatment charges are applicable to the twice per six (6) months sample analyses mandated by the State (scheduled and unscheduled) or any other permit sampling as deemed necessary to protect the treatment works.

II. PRETREATMENT CHARGES

<u>ANALYSIS/ACTIVITY</u>	<u>Charge per Occurrence</u>
Chemical Oxygen Demand	\$ 30.00
Biochemical Oxygen Demand	\$ 25.00
pH	\$ 8.00
Total Kjeldahl Nitrogen	\$ 19.00
Ammonia Nitrogen	\$ 19.00
Oil and Grease	\$ 53.00
Metals	\$200.00
Total Suspended Solids	\$ 14.00
Phosphorus	\$ 19.00
Occurrence Monitoring	\$168.00
Permit Fee Process	\$1,600.00

Section II, Pretreatment Charges, shall be adjusted annually based on comparisons of prices being charged by local companies providing similar services.

III. HAULED WASTEWATER

A minimum fee of \$79.62 will be charged for all loads which are 2000 gallons, or less, in volume. Charges for wastewater volumes above the minimum charged for 2000 gallons, or less, shall be at a rate of \$0.0398 per gallon.

In the event the flowmeter data is not available for billing purposes above the minimum fee, the fee will be based on the discharged volume of each vehicle tank as certified by the vehicle driver.

Discharges that do not comply with GUC's Sanitary Sewer Use Regulations, Section 20.1.2., Specific Prohibitions, will be surcharged an additional \$0.017 per gallon.

Section III, the Hauled Wastewater fee shall be adjusted annually on July 1<sup>st</sup>, based on the percentage change in the CPI-U during the previous twelve months. Negative changes in the CPI-U shall result in no change being made to this fee.

Effective July 1, 2024  
Supersedes Schedule dated July 1, 2023
