

NATURAL GAS RATE SCHEDULE N-6

SEASONAL SERVICE

I. APPLICABILITY

This schedule is applicable for the supply of firm natural gas service to all commercial customers requiring summer time natural gas service whose CCF consumption during any five (5) consecutive billing months from April to October (summer months), inclusive, is or is expected to be 80% or more of the customer's total annual CCF consumption. At the time of application for natural gas service, the customer's annual CCF consumption will be estimated based on the nature and characteristics of the natural gas service required from the Commission. This rate schedule defined herein is not available for short-term, temporary, breakdown, standby, or supplemental service, but is intended for commercial customers that require excessive natural gas service during the summer months based on the nature of the commercial service provided by that customer.

II. CHARACTER OF SERVICE

Deliveries under this rate schedule shall be through a single point of delivery on a firm gas basis and shall not be subject to curtailment or interruption, except that caused by an event of force majeure, or operating conditions beyond the control of the Commission or Customer. In addition, the gas received and used under the rate schedule defined herein shall be metered at the point of delivery and shall not be utilized for resale. The heat value of natural gas shall not be less than 1000 Btu per cubic foot.

III. MONTHLY RATE

Table 20-6 below provides a summary of the monthly rates charges furnished to Commission customers served under Schedule N-6.

Natural Gas Rate Schedule N-6
Seasonal Service

Table 20-6
Summary of Schedule N-6 Monthly Rates

LINE	DESCRIPTION	CHARGE	UNITS
	Seasonal:		
1	Base Facilities Charge	\$41.00	Per month
	Plus Commodity Charge:		
2	All CCF	\$1.1016	Per CCF

IV. MINIMUM MONTHLY BILL

The minimum monthly bill shall be the monthly Base Facilities Charge levied upon any natural gas customer served by the Commission, under the rate schedule defined herein, based on the calculated Commission cost of making natural gas service available to this customer.

V. PURCHASED GAS ADJUSTMENT

The Purchase Gas Adjustment (PGA) is applicable to all natural gas sales under the schedule defined herein. Further detail related to PGA is provided in Rate Schedule PGA.

VI. GENERAL PROVISIONS

- A. Natural gas, or its equivalent, having not less than 1,000 British Thermal Units per cubic foot of gas will be supplied at seven (7) inches water column (1/4 PSI) unless higher pressure is approved by the Commission. Delivery pressure in excess of seven (7) inches water column (1/4 PSI) shall be corrected to such pressure by volume.
- B. The rate of charges as stated herein is subject to change by the Commission.
- C. Gas service supplied hereunder shall be at a single point of metering, unless otherwise provided, and shall not be resold.

Seasonal Service

- D. Billing, payments and penalties will be handled in accordance with the Commission's existing policies, or as such practices may be changed or amended.
- E. The Commission shall install and maintain metering and regulating equipment. The point of delivery shall be the outlet of the natural gas meter and the Commission will not be liable to the Customer or any of his agents, servants, or employees, or to any person whomsoever for any loss, damage, or injury to person or property resulting from said gas or its use after it leaves said point of delivery, all risk thereof and therefrom being assumed by the Customer, except when caused by the exclusive negligence or willful acts of employees of the Commission. The Commission's representatives shall have the right of ingress and egress to the Customer's property at any time for any purpose involving the service of gas as provided under this rate schedule.
- F. Service under this rate schedule is subject to the rules, regulations and tax levies of duly constituted regulatory bodies having jurisdiction over either or both parties.
- G. The Customer agrees that all appliances, equipment and piping beyond the point of delivery will be installed according to applicable codes and maintained in a safe condition. A violation of this provision shall be grounds for the Commission to immediately discontinue service until the condition is corrected and inspected.
- H. Commission agrees that all piping, meter and regulatory equipment owned by the Commission will be installed according to applicable codes and good practice and maintained in a safe condition.
