GREENVILLE, NORTH CAROLINA

QUESTIONS AND ANSWERS FOR #18-63, RFP FOR ONE COPIER

DATE DUE 12/4/18

Questions and Answers:

Is the volume indicated in the RFP correct? So, the meter reading today (11/20/18) is 113873 divided by 35 months would give us the monthly. So, here are the new numbers: 3252 per month total, BW 1527 Color 1725 Note: (Please use these numbers for your RFP submission)

The monthly volume seems excessive on a 36 ppm device. On systems running the volume indicated, we would typically suggested a faster system to handle that work load. n/a

How long has the current C368 been in place?
Installed January 5, 2016.

What is the desired lease term (if leasing option is selected)?
That will depend on the overall RFP information submitted concerning a lease.

Can we get a current meter reading on the C368?
11/20/18,
Total 113873
BW 53469
Color 60404
