

QUESTION AND ANSWERS FOR:

RFB # 19-58, 1/30/20 FOR

GAS LEAK DETECTION

1. 1. Where are the main gas lines located? (street, alley, backyards)
Generally, gas mains are in the street right-of-way. However, in several areas around town they are located behind houses, alleys, easements, cross country, etc.
2. Where are the meters located as well? (Front of house, backyard, alley, etc.)
Generally, gas meters are located either on the side of the house or back. Some located on the front, in alleys, behind fences, etc.
