

**QUESTION AND ANSWERS FOR:**

**RFB # 13-26, 08/22/13**

**One (1) 60' Aerial Tower Unit Mounted with Utility Line Body & 1,250 lbs. Material  
Handling Package.**

The question is concerning the entry steps on the 60' Aerial Tower Unit Mounted With Utility Line Body.

**Question:** We did not specifically call out for side access steps to body.

**Answer:** Specifications call for Access steps and grab handles shall be provided for tower access, under **ADDITIONAL FEATURES AND EQUIPMENT**. The locations was not specified, however, we would want them located on the curbside in the P3 location.
