RFB FOR INSTALLATION OF MT. PLEASANT TO SUGG 115KV TRANSMISSION LINE

11/17/2022 at 4:00PM

1. Are the Distribution Unit sheets supposed to add to the Transmission Total or are they just for information purposes. There is no total at the bottom of the sheet and no place on the bid schedule to put them.

Distribution Unit Sheets should be added to the "Proposal Pages" section of the bid after page P-11. These Prices should be included in the "Transmission Construction Assembly Units" on page P-12. For this project all three lines on P-12 are the same. Putting the Bid total on the Bottom "Total" line of page P-12 is sufficient.
