

GREENVILLE UTILITIES COMMISSION
QUESTIONS AND ANSWERS FOR 25-36
RFB FOR EMERGENCY MANAGEMENT PLAN ASSESMENT
6/24/2025 @ 11:00 AM

1. From a scope perspective can you advise how many individual plans would be included in the review?
From a granularity perspective, will this include plans associated with individual operations (i.e.: LNG Plant, wastewater treatment plant)?

There is a comprehensive plan, Water Resource departmental plan, and Gas departmental plan that will all be included in the assessment.

2. Can you advise how many employees would be included in Incident Command System training?

We have approximately 487 employees, Most of those employees will need some level of ICS re-training.
