BIDS FOR TRANSFORMERS
5/26/2026 @ 2:00 PM

1. We noticed that the specifications include a list of acceptable transformer manufacturers, and that bidders proposing a non-accepted manufacturer should first contact the Director of Electric Systems for conditional approval.

Anyone may submit a bid.

2. We would like to check what would be required to obtain conditional approval for transformer manufacturers that are not currently on the approved list.

A non-accepted manufacturer should first contact the Director of Electric Systems for conditional approval.
