FOR CABLE FOR G230S TO SIMP PH.2

11/24/2026 @ 2:00 PM

1. The delivery address is shown as both 711 Utility Way and 701 Utility Way, Greenville, NC 27834. Which address is correct?

701 Utility Way.

2. For Item V, should the specified reel weight be 4,157 lb or 4,160 lb?

4,160 lb.

3. For Item VIII, should the total pricing quantity be 6,486 lb or 6,846 lb?

6,846 lb.

4. Please confirm which industry standards and certified test reports apply specifically to the bare overhead conductors.

Please use the Specs that are in the Bid.

5. Is the $3 million cyber liability insurance requirement mandatory for a materials-only supply contract?

Yes.

6. Should the contract signatory page be submitted with the bid, or completed by the successful vendor following award?

No.

7. Can you please confirm whether bare overhead conductors manufactured by companies other than those listed under the acceptable underground cable manufacturers will be considered, provided they meet all required specifications?

Yes, the manufacturer's list is specifically for underground cable. Bids for overhead bare conductor will be considered if manufactured by entities other than those listed for underground cable.

8. What is the anticipated purchasing period for the release-based orders?

Up to 30 days for decision of award.
