

QUESTIONS AND ANSWERS FOR:

RFB # 20-51, 11/05/2020 FOR

RFB FOR INSTALLATION OF 115 KV TRANSMISSION STRUCTURES

ALONG SUGG PARKWAY TAP

1. On page 45 of the Proposal Summary, The Transmission Construction Assembly Units, Wood Pole Transmission Line, Pole Removal and Distribution Conductor Removal Totals. Do you have an Assembly Unit page for these two items? I looked through here and did not see one for them? Is there one needed for them? **We do not provide an Assembly page for removals. We are asking for a lump sum price of the removals specified in the scope of this project on page 76 (S-1).**
2. My understanding when reading the bid package is that section III does not need to be turned in with the proposal due on November 3rd. That it would only be filled out in the event we were awarded the bid. **Correct.**
