

QUESTIONS AND ANSWERS FOR:

RFB # 21-01, 02/09/2021 FOR REPLACEMENT OF 115 KV TRANSMISSION

STRUCTURES ALONG CIRCUIT 15, 16, & 17

1. Section 19. Completion states "The completion date for the projects' on-site activities shall be July 29, 2021." However, under "Terms & Conditions" page P-3, Item #12 states "The targeted date for completion is July 1, 2021." Please confirm the final completion date. **July 29, 2021 is the correct completion date.**
2. There are no removals in the unit sheets but it's on the bid summary. Do we put the removals into our install prices or do we just use the summary sheets and put a lump sum price there. Please advise. **Removals can be included in both the unit sheets and as a lump sum price on the bid summary page.**
