

QUESTIONS AND ANSWERS FOR:
RFB # 21-26, 05/26/2021 FOR
RFB FOR TUBULAR STEEL STRUCTURES

1. Are drawings available for structures 6-9 and 10-14?
 - Grounding detail drawings were provided in the RFB for structures 6-9 & 10-14. Structure framing drawings were not provided in the RFB for these structures because they are blank poles. All information needed for these poles is provided in the grounding detail drawings.

2. When are these poles needed on site?
 - Steel pole delivery lead times should be provided for each bid. Lead times will be used to evaluate bids.
