

BE CAREFUL WHAT YOU FLUSH!

It's simple -- there is only **one** product you can safely flush down the toilet - **toilet paper!**

Toilets Are Not Trash Cans

When things that shouldn't be flushed are flushed, it causes problems for homes, GUC, and the environment.

Remember: disposable does NOT mean flushable. Even flushable does NOT always mean you should flush it. If the label reads “flushable,” like some toilet wipes, you are still safer and more environmentally-correct to place them in the trash.

Here’s a list of more things that should NOT be flushed:

- Adult and baby wipes
- Aquarium gravel
- Butane lighters
- Candy and other food wrappers
- Cigarette & cigar butts
- Coffee filters
- Condoms
- Cotton swabs
- Diapers
- Dental floss
- Feminine products
- Food scraps
- Grease
- Kitty litter
- Medicated wipes
- Medicines
- Napkins
- Oil
- Paper towels
- Plastic bags & bottles
- Rags and towels
- Shop cloths
- Sponges
- Syringes
- Tissue
- Vitamins
