

# Wastewater Annual Report

Returning one of our most valuable resources to the Tar River in the most responsible way.

Wastewater collection/treatment is a 24-hour-a-day, 7-day-a-week responsibility. Our goal is to protect the environment and the quality of life not only for the Greenville region, but for our neighboring communities as well. Each city and town along the Tar-Pamlico River Basin is affected by the quality of water discharged from the respective wastewater treatment plants.

Read more about how we preserve one of our community's most valuable resources in the GUC Wastewater Annual Report. It's now available to view and download online at: [www.guc.com/WWAR2018](http://www.guc.com/WWAR2018).

# Wastewater Annual Report

Every year, Greenville Utilities publishes a report summarizing the performance of our Wastewater System. The report for the 12-month period from July 1, 2017 to June 30, 2018 is now available online and as printed copies, upon request.

Customers can view and download the report online at: [www.guc.com/WWAR2018](http://www.guc.com/WWAR2018)

To request a printed copy of the report, call (252) 752-7166 ext. 1551.
